RE: CTH L, Janesville Road
Project I.D. 06-2380(12)
CTH L, CTH Y to Moorland Road

Dear Janesville Road Stakeholder:

The Waukesha County Department of Public Works has been working on plans for the improvement of CTH L, Janesville Road. The current project involves the reconstruction and widening of the segment of CTH L from CTH O, Moorland Road, to CTH Y, Racine Avenue. The County is in the final design of the improvements and has started purchasing right of way for the upcoming construction.

Waukesha County has made a decision to pursue available Federal Aid Funding for a portion of the construction on this project. This decision was made based on the challenging economic times we are facing and the need to best utilize available funding to the benefit of taxpayers. This decision will result in some changes to the project design, schedule and plans. We are sending you this letter and a brochure to better help you understand this decision and its impacts.

Waukesha County has a strong commitment to the CTH L project. The planned funding change will not alter this commitment and we wish to assure you that the CTH L project will continue to advance.

If you have any questions, please contact our project engineer, Mr. Ed Hinrichs at (262) 548-7745

Sincerely,

A handwritten signature in cursive script that reads "Allison Bussler".

Allison Bussler, Interim Director
Department of Public Works
